Experience

Pass 11 Plus under JMS Private Limited -Contract Worker (Remote)

February 2023 – May 2025

Full Stack Web Developer & Website Administrator

Birmingham, United Kingdom

- Designed, developed, and maintained responsive front-end interfaces and robust back-end systems to support the company's digital objectives.
- Regularly updated and optimized website features, performance, and structure, ensuring cross-browser compatibility, mobile responsiveness, and efficient load times.
- Provided technical support, resolved website issues, and collaborated with cross-functional teams to ensure the site remained functional, current, and aligned with evolving business needs.
- Regularly collaborated with the team to troubleshoot, optimize, and scale the application, enhancing site performance and ensuring smooth deployment.

Projects

UFP Generator - Pass 11 Plus under JMS Private Limited | React.js

February 2025 – March 2025

- Developed a lightweight web tool to help the design team quickly generate Unicode-supported fractions and power symbols for educational content.
- Implemented features for one-click copying of fractions and exponents, improving content creation speed and consistency.
- Designed a fully responsive UI with custom animations, ensuring a smooth user experience across devices.
- Enabled efficient and accurate formatting of mathematical expressions for academic writing, social media posts, and printable materials.
